

STRATEGIC PAYMENTS BLUEPRINT™

A framework to help financial institutions modernize with confidence

SAFE TO SEND™ ACCELERATOR: STABLECOIN EDITION

From GENIUS to Global: Stablecoins Made Safe, Simple, and Strategic.

OVERVIEW

With the U.S. GENIUS Act reshaping the regulatory landscape for dollar-backed stablecoins, financial institutions worldwide face a new mandate: prepare to evaluate and enable stablecoin-based disbursements, or risk losing ground to fintechs and global competitors.

The **SAFE to SEND™ Accelerator Program: Stablecoin Edition** provides a structured, vendor-agnostic approach to de-risk use cases, evaluate new risk categories, and align stakeholders on a practical path forward.

PROGRAM OUTCOMES

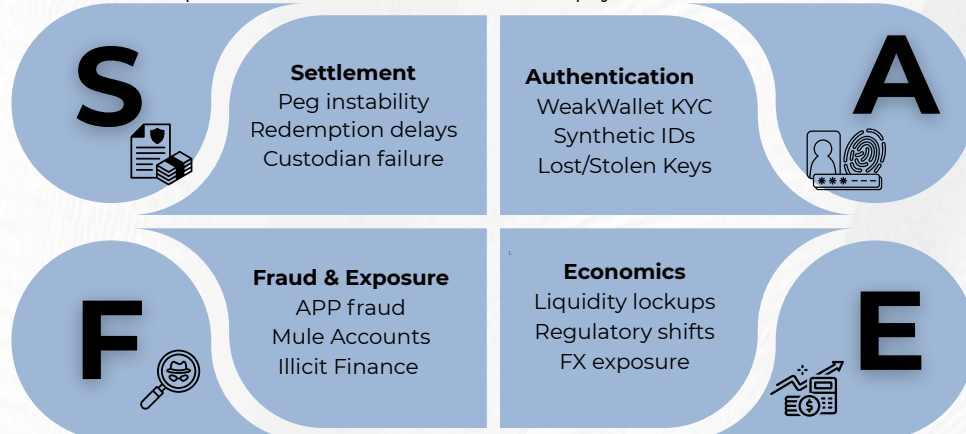

An 8-week engagement designed for banks, credit unions, and treasury teams exploring stablecoins for disbursements, FX, and liquidity optimization

Sample Use cases

- Cross-border payroll & remittances (*lower fees, 24/7 settlement, GENIUS-aligned*)
- Treasury & ERP integration (*programmable disbursements, tokenized receivables*)
- Government & NGO disbursements (*aid, subsidies, emergency relief*)
- Merchant settlement & pay-on-delivery (*faster liquidity cycles*)

SAFE™ = Settlement | Authentication | Fraud & Exposure | Economics

A proven framework to de-risk instant payments and unlock ROI.

WHY IT MATTERS

The **GENIUS Act** delivers the **clearest framework yet for U.S. dollar-backed stablecoins, with ripple effects on issuer obligations, reserve transparency, and cross-border corridor strategies.** Institutions must move from curiosity to readiness: which use cases are feasible, compliant, and monetizable under this new regime?

Common barriers: Unclear ROI, team misalignment, heightened fraud/regulatory risk, and mandates to innovate without overstressing people or budgets.

The **SAFE to SEND™** framework tackles these barriers head-on, aligning stakeholders, de-risking opportunities, and creating a clear, confident path to launch.

Let's Collaborate

Stablecoin adoption is accelerating. If your team is exploring roles in settlement, FX, or tokenized disbursements, we can help you chart a responsible path forward.

Start with a complimentary Stablecoin Readiness Review - a strategy call to benchmark readiness and explore priority use cases.

Need leadership alignment? Book a **half-day executive** training, a focused GENIUS Act and stablecoin briefing with open Q&A.

Ready to act? Engage with the **SAFE to SEND™ Accelerator: Stablecoin Edition**. In 8 weeks, we align stakeholders, de-risk use cases, and deliver a board-ready roadmap.
